(c) and (d) It has been decided to implement a centrally sponsored scheme for universalisation of access to and improvement of quality of education at secondary stage during Eleventh Five Year Plan subject to requisite approval. The scheme, *inter-alia*, provides for upgradation of existing upper primary schools and strengthening of existing secondary schools so as to provide access to secondary schools within a reasonable distance of every habitation. The number of additional schools required in each Sate depends on the gaps in the availability of schools at present.

(e) A Committee of Central Advisory Board of Education on "Universalisation of Secondary Education" in their report (June, 2005) has estimated enrolment of 4.66 crore for secondary stage (Grades IX-X) by the end of Eleventh Five Year Plan (2011-12) based on 100% success of Sarva Shiksha Abhiyan and 3.42 crore based on 75% success of SSA. As against this, as per "Selected Educational Statistics—2004-05" (with reference dated 30.9.2004), the actual enrolment for the corresponding grade (classes IX-X) was 2.43 crore in 2004-05.

Computer software market

†2797. MISS ANUSUIYA UIKEY: Will the Minister of HUMAN RESOURCE DEVFLOPMENT be pleased to state:

(a) the worth of country's computer software building/export market;

(b) the number of trained computer software engineers and other trained individuals required annually in this industry in the country;

(c) whether country's educational institutes produce trained engineers, as per the demand; and

(d) if not, whether Government would make necessary efforts to meet the demand of trained engineers, in keeping with the requirement of software sector and the increasing demand?

THE MINISTER OF STATE IN THE MINISTRY OF HUMAN RESOURCE D[illegible]ELOPMENT (SHRIMATI D. PURANDESWARI): (a) As per National Association of [illegible]ware & Service Companies (NASSCOM), during 2006-07, the share of Information Technology (IT) Industry in country's GDP was 5.2% *i.e.* USD 48.1 Billion approximately, which comprised hardware and software Products- USD 11.5 Billion and IT services - USD 36.6 Billion.

(b) As per NASSCOM, around 16.30 lakh people were employed in IT sector during 2006-07 and 3.75 lakh more jobs were expected to be added in the IT Sector in 2007-08.

(c) and (d) As per projections of the All India Council for Technical Education (AICTE), at the present rate of increase in enrolment in engineering colleges, there is not going to be any shortfall in the number of engineers in the country, However, NASSCOM has raised the issue of employability of engineering graduates in India. A working Group was constituted by the Ministry to examine the issues raised by NASSCOM. The Working Group has *inter-alia* recommended Finishing Schools for engineering graduates to enhance their employability, changes in the syllabi of various engineering colleges so as to make them compatible with the needs of the industry, etc. For the present Finishing schools are being organized for IT Sector.
